Subject: Gasco/Siltronic Off-Shore Groundwater Work Plan
Date: 06/30/2006 03:42 PM

I distributed copies of the revised off-shore groundwater investigation work plan prepared by NW Natural to augment the transition zone water work conducted by the LWG. As a reminder, this is work that is specifically proposed to support the in-water RI rather than upland source control. DEQ agreed to coordinate the review because NW Natural does not have a cost recovery order with EPA.

I am requesting review comments by 7/21. Please let me know if this is a problem.

Thanks,

Matt McClincy
